State vs Rucker. *Venire de novo.*

SENATOR MURRAY DENIES THE STATEMENT OF DISTURBANCES IN ALAMANCE.—The *Era* of last Saturday contained a letter from Alamance county, alleging that serious outrages had recently occurred in that county by parties belonging to the ku klux organization, and stating that the whole community was in a state of terror. Senator Murray yesterday morning rose to a question of personal privilege, and said:

"MR. PRESIDENT:—I rise to a question of personal privilege. I notice in the *Era* of the 22nd inst. a slanderous and false fabrication, signed "M," against the citizens of my county. I have been in attendance upon Alamance Court for several days and did not hear one word of the allegations charged.

I saw the citizens spoken of in the communication alluded to, as well as a great many others from that portion of my county, and I heard nothing of any disturbances of any kind, nor do I believe that there is one word of truth in the whole statement. The Grand Jury was discharged on Friday, and I think that of itself is evidence that the state of affairs in that county is not as represented. I think that if there is a citizen of Alamance that is so far debased as to slander his own countrymen that his name at least should be given, so that he could be held up to the gaze of the world as a vile and malicious traducer of his own people. I pronounce the whole thing a malicious, slanderous and false fabrication."

A LIVERY STABLE FOR SALE.—See the notice elsewhere of the sale of the entire livery stable stock of Messrs. S. M. Dunn & Co., which occurs on the 8th of March. The proposed raffle for the same has been abandoned, and the sale will positively take place.

THE PEOPLE EX REL. JOHN NICHOLS vs. W. H. MCKEE.—Below we give the decision of Judge Reade, filed in the Supreme Court yesterday afternoon, in relation to this case. This decision sustains the Governor's claim to have the right to nominate the Directors of the Deaf and Dumb and Blind Asylum. The argument in this case covers the scope of the decisions rendered as to the Insane Asylum, the Penitentiary, Keeper of the Capitol, &c. It will be seen by a reference to our list of opinions that the Court sustains Governor Caldwell in every particular, save in that of the Superintendent of Public Instruction:

The people ex. rel. Nichols et al. vs. McKee et al.

The theory of our State government is, "that all political power is vested in and derived from the people." Con. Art. 1, Sec. 2. The Constitution is their grant of powers; and it is the only grant which they have made. "And all powers not therein delegated remain with the people." Art. 1, Sec. 37. This last clause will not be found in the former Constitutions of the State. The Constitution then proceeds to divide the government into three departments, Legislative, Executive and Judicial, and makes a grant of powers to each department, under its appropriate head, and directs that they shall be "forever seperate and distinct from each other." Neither is superior or inferior to the other, but each has its appropriate functions, and in the exercise of them, is independent and supreme. To the Legislative department is granted the power of *making* laws; to the Executive department the power of executing laws; and to the Judicial, the power of *expounding* the laws.

It is true that their several functions sometime shade into each other as do the colors of the rainbow; but still they are distinct—as where the Governor appoints and the Senate confirms; or where the Governor fills vacancies in the judicial department. It follows that it is not true, as contended for upon the argument, that the Legislature is supreme, except in so far as it is expressly restrained. However that may be in other governments, or however it may have heretofore been in this State, it is plain, that since the adoption of our present Constitution the Legislative, just like the other departments, acts under a *grant* of powers, and cannot exceed them. This being so, it is indispensable to good government that each department should confine itself strictly to the exercise of its legitimate functions. And then, however they may shade into each other, there will still be harmony. It is only where the powers are brought in conflict that they become entangling and dangerous.

The first question is, to which of the departments has the constitution granted the power of appointment to office? If the Constitution does not in *express* terms grant the power to any one of the departments, and we have to solve the question by *construction* or *implication*, then we would have to consider whether the duty in any given case, is a Legislative, or an Executive, or a Judicial one; but if there is an express grant, then, of course, that must govern.

Under the first Constitution for the State, the Legislature was the general appointing power. It elected the Governor, his Council and other Executive officers, the officers of the Military, the Judges of the Courts, Justices of the Peace, &c. The Governor had no appointing power, except to fill vacancies when the Legislature was not in session. Under the present Constitution there is an entire change. The people have resevered to themselves the election of almost all the offices in the State. There are still some of the officers, which, for convenience, are otherwise appointed or elected, or chosen, as the case may be, and we proceed now to enquire to which of the departments the power is given.

1. We will first consider, what express grant of appointing power is made to the Legislature.

"Art II, Sec. 20. The House of Representatives shall choose *their own* speaker and other officers.

"Sec. 22. The Senate shall choose *its* other officers, and also a speaker *pro tempore* in the absence of the Lieutenant Governor, or when he shall exercise the office of Governor."

The foregoing are all the grants of powers of appointment to the Legislature under the second article, which is the legislative article. And it will be observed, that even these are not grants to the Legislature as a *body*, but only to each *branch* to choose *its own* officers. Under the third article, which is the executive article, sec. 10. "The Governor shall nominate and by and with the advice and consent of the Senate, appoint, all officers, &c., *and no such officer shall be appointed or elected by the General Assembly*."

Except the foregoing, there is no other express grant of appointing power to the Legislature [illegible] the extension last quoted is only the power of one branch, to confirm or reject the nominations of the Governor; with an express prohibition to the General Assembly as a body, in regard to *all* officers. So, it is plain, that there is not only no express grant of power to the legislative department to appoint to office; but there is an *express prohibition*.

2. In the second place we will consider, what express grant of appointing power is made to the Executive Department.

Article III. Sec. 10. "The Governor shall nominate, and by and with the advice and consent of a majority of the Senators elect, appoint all officers whose offices are established by this Constitution, or, which shall be created by law, and whose appointments are not otherwise provided for, and no such officer shall be appointed or elected by the General Assembly."

That section, read without any verbal criticism, would seem to make the *Governor* the *general appointing power*, and to *exclude the Legislature* altogether.

Sec. 13 Enumerates the principal Executive officers, and provides, that, "If the office of any of said offices shall be vacated by death, &c., it shall be the duty of the Governor to appoint, &c."

The foregoing are all the express grants under the said Executive article. But under Article IV, which is the Judicial article, section 31, it is provided, that "All vacancies occurring in the offices provided for by this article of the Constitution, shall be filled by the appointment of the Governor, unless otherwise provided for," &c. And, under Article VII, section 11, the Governor was authorized to appoint Justices of the Peace in each county, until elections could be held.

From the foregoing it is plain, that the general appointing power is given to the Governor, with the concurrence of the Senate; and that the power to fill vacancies, not otherwise provided for, is given to the Governor alone; and *that*, whether the Legislature is in session or not, and without calling the Senate.

4. In the third place we are to consider what appointing power is expressly given to the Judiciary. It seems that the only power expressly granted to the Supreme Court, is to appoint its clerk; and to the Superior Court, to fill vacancies in their clerkships.

Reading the whole Constitution, and without any hypercriticism, it is plain, that such officers as are not elected by the people at the polls, and most of them are so elected, are to be appointed by the Governor, the Senate concurring, except the immediate offices of each branch of the Legislature, and the immediate officers of the Supreme Court; and that all vacancies are to be filled by the Governor alone, except such as are otherwise specifically provided for. And the Legislature has no more right to appoint the Directors of the Asylums, than the Governor has to appoint the clerks of the Legislature.

4. In the next place we are to inquire whether the Directors of the Insane Asylam, Deaf and Dumb Asylum, Penitentiary, &c. are officers; or, whether they are only servants, employees, or contractors of the State. The arguments upon this part of the case were exhaustive, and the citations of authorities abundant. The learned counsel who insisted that they are *not* officers, defined an office to be, a lodgement of some portion of the sovereignty of the State; and an officer to be, one who exercises some portion of the sovereign power. Take that to be so, for the sake of argument, or put it in another form, and say, that, an office is a part of the government, and part of the State polity, and that an officer is one who takes part in the government, and then try our case by that test. The Constitution establishes—i. e., "secures the permanent existence of,"—as a part of the State polity, certain charitable institutions for the care of the unfortunate, and penal institutions for the punishment of criminals: can these institutions exist without a board of directors? And is not such a board an office, a lodgement of a portion of the government? And are not the directors officers, taking part in the government? The *statement* of the case is enough. We do not propose to follow the argument farther; because, the Constitution not only *makes* them officers, but in express terms *calls* them officers—which seems to have been overlooked by the learned counsel. Art. III., sec. 7. "The *officers* of the Executive Department and of the *public institutions* of the State, shall report to the Governor," &c. And note, that this is under the Executive Article of the Constitution.

The Governor with the advice of the Senate, having the appointment of all *officers*; and the directors of the Public Institutions being *officers*, it follows, that their appointments are with the Governor and Senate, unless otherwise provided for. It is not pretended that they are otherwise provided for by *express* terms in the Constitution, but it is insisted that they are provided for by *implication*: (1.) because the Legislature has *all* powers, except wherein it is restrained. But, we have seen, that is not so; for the Legislature, like the other departments, acts under *grant* of powers. (2.) Because they have been provided for by law, to wit, by appointment of the Legislature, which, it is insisted, takes the appointment from the Governor which he would otherwise have had with the Senate under Art. 3, Sec. 10. On the other side it is insisted, in regard to this last position, that "not otherwise provided for," means, not otherwise provided *in the Constitution*. So that, one side insists upon reading the 10 section, "not otherwise provided for *by law*." And the other side insists upon reading it, "not otherwise provided for *in the Constitntion*."

It has already been said in two cases in this Court, Clarke vs Stanly, 63 N. C. R. and Hoke vs. University, Railroad 63 N C R., that "not otherwise provided for," meant, "in the Constitution;" but they were *dicta* and were not considered [illegible] question. [illegible] named in the Constitution, and [illegible] the same power in regard to offices to be created thereafter or which [illegible] created before? And why should the Constitution expressly prohibit "the General Assembly" from electing any officer named in the C[illegible] permit the General Assembly to elect officers thereafter to be created?

The Constitution reserves to the people the election of almost all the officers in the State. For such as they did not choose to elect, or, it was not convenient for them to elect, the most convenient other mode was prescribed; to-wit: nomination by the Governor. Elections were taken away from the General Assembly, because it is a large body with two branches and is very expensive. *That* was one of the evils; there may have been others. Would not the evil exist in electing officers thereafter to be created, as well as officers named in the Constitution? Doubtless. And must we not construe the provision with reference to the evil? Put the election of half dozen Directors, for half dozen Institutions each, in the General Assembly, and circumstances would often occur which would make the expense and inconvenience enormous. But then it is said, that the election need not be by the Legislature itself, but that it may be otherwise provided for by law. But it is answered, why should it be supposed that it was the purpose of the Constitution to allow the Legislature to appoint other modes for filling offices than the mode prescribed in the Constitution? If the mode prescribed in the Constitution was not the best, why was it prescribed? If it was the best, why allow it to be altered? And especially why leave the mode at sea so as to engender conflicts between the Departments?

It was insisted by Mr. Battle with much confidence, that unless the 10th section is so construed as to give the Legislature power to provide for filling offices, then the government cannot be administered, and must fall; because no provision is made in the Constitution for filling *vacancies* in the *county* officers; and it would be impracticable for the Governor to fill them. The county offices and officers will not be found under any of the articles of the Constitution, which we have been considering, but under the article, "Municipal Corporations." And while the *election* of all the county officers are provided for by the people at the polls; yet, if *vacancies* occur in some of them, the mode of filling them is not *named*. If there were *no* mode of filling them, still the result might not be disastrous; because, most of the offices are filled by several; and if one should die, a majority might act; but still it would be an *inconvenience*, which ought not to exist; and it is true also, that *some* of the offices are filled by a single officer. But suppose the fact be, that there is no *express* power in the Constitution for filling such vacancies, does it follow that the *Legislature* has the *inherent* power to fill them? Why the Legislature rather than the Executive? If the Legislature has no power to fill vacancies on any other case, why assume it in this? And if the Governor has the power to fill vacancies in every other case, why deny it in this? It it be a *casus omissus*, and *necessity* implies a power somewhere, it ought to be implied to reside with the general power to fill vacancies—the Governor. But, there is another, and, probably, a better way of meeting the difficulty. A county is a corporation; and, after its officers have been elected by the people according to law, and a vacancy happens which it is *necessary* to fill, it is inherent in the corporation to preserve its own existence; and the electors may fill a vacancy, just as the electors may fill a vacancy in the Legislature. And such legislation as would be necessary to conduct the election, would be legitimate. But it is not in the power of the Legislature itself to fill the vacancies; or to prescribe that they shall be filled otherwise than by the electors; unless the corporate authorities have the *inherent* right to fill the vacancies; in which case appropriate legislation to enable them to exercise their rights would be legitimate. And there is already such legislation.

Our conclusion is, that the Legislature has no power to elect or appoint any officer in the State, except its own officers. Nor has it the power to provide for the appointment, or election, of any officer, whose office now exist, or which may hereafter be created; so as to take the appointment away from the Governor and Senate, or other appoiating power, or the election away from the people. Nor can the Constitutional rights of the Governor or the people be evaded by letting the offices to contractors.

The Deaf and Dumb Asylum was one of the public institutions of the State at the time of the adoption of the Constitution in 1868, governed by a Board of Directors. The 14th Article, Sec. 5, of the Constitution continues them in office until other appointments should be made by the Governor. The Governor made other appointments, who were in office 21st January, 1871. At which time the General Assembly passed an act abolishing the Board of Directors, and providing for a "Board of Trustees." We assume that the General Assembly had some sufficient reason for changing the *name* of the Board, but left the Board, the office, to be filled by officers. And then the Act proceeded to fill the office with the defendants; and to provide that the Governor should fill vacancies, "subject to the approval of the General Assembly, who themselves shall fill the vacancies, if they disapprove of the appointment made by the Governor."

The question is, had the Legislature the power to fill the office by the appointment of the defendants? We have already seen that there is [illegible] *express* [illegible] *prohibited* [illegible] *void*.

[illegible] under sec. 10 [illegible] And if the Senate was in session he ought to have sent the nominations to the Senate, because it was the original filling the office, and not the filling a vacancy, which latter he can do without the Senate. The Governor did not nominate to the Senate, but, as we assume, out of respect for the Legislative action, and under a mistake as to his duties, he allowed the office to remain vacant until 1st of March, 1872, after Clark vs. Stanly was decided, when he filled. The vacancies caused by his failure to nominate, by the appointment of the Relators, whose term of office is limited by the act aforesaid, "to 1st January, 1873, and until their successors are chosen."

Regularly, it was the duty of the Governor, on the 1st day of January 1873, to nominate to the Senate the successors of the Relators. And then, the Relators would have gone out of office. But their successors were not nominated at that time—the action of the Governor, as we assume, being postponed for this decision as to his powers and duty, and as to the powers of the Legislature over the appointments. Indeed the Senate was not in session on 1st of January, 1873, having taken a recess for some weeks. So, the Relators term continued until their successors are appointed.

The Senate being now in session, and the powers of the Executive and Legislative Departments being herein declared; and it being declared that the Governor, by and with the advice of the Senate, has the power of appointment; and it being of great public moment that the offices should be filled according to law; it is to be supposed that the Relators successors will be immediately appointed; and then, their term will end. But all that we can authoritatively *decide* is, that the departments, unlawfully hold and exercise the office of "the Board of Trustees of the Asylum for the Deaf Dumb and Blind;" and the Relators are entitled to hold and exercise said office, until their successors are appointed according to law. There will be judgment that the defendants be excluded from said office, and that the plaintiffs recover their costs. The statute, C. C. P., S. 375, authorizes the Court, in its discretion, to fine each of the defendants a sum not exceedeng $2,000. But, as the defendants, went into the office under an act of the General Assembly, we assume that they had no criminal intent, &c., therefore, in the exercise of our discretion, and in respect to the General Assembly, no fine is imposed.

There is no error—affirmed. Reade J. See The People *vs.* Bledsoe *et al.* at this term,

MCIVER STICKS.—The Supreme Court yesterday delivered the following opinion, settling the Battle-Iver case:

Consider the case as if Ashley had not resigned. His term would have expired January 1, 1873, if his successor had been elected and qualified. As his successor was not elected and qualified, he would have held over. Constitution, Article 3, section 1. Up to Jan. 1, 1873, he would have held as filling his own term, and after that time as holding over for the election and qualification of his successor.

As Ashley did resign, and the defendant, McIver, was put in his place; he was put in his place to all intents and purposes, and up to January 1, 1873, filled the vacancy caused by Ashley's resignation, and after that time, as holding over for the election and qualification of his successor. How long he may be entitled to hold over, or when and how his successor is to be "elected and qualified," may be beyond the purposes of this decision; but it would seem that it will be only until the people can elect his successor at the next "general election," to-wit: Aug., 1874, Article 3, sections 1 and 3. It has been suggested, that as term for which Mr. Reid was elected was four years, from and after January 1, 1873; and as the defendant, Mr. McIver, is in to fill the vacancy caused by Mr. Reid's failure to qualify; he is in Mr. Reid's place to all intents and purposes, and is entitled to hold for the whole four years. But the Constitution is express that Mr. McIver shall hold only until the next election, "and the person then chosen shall hold the office for the remainder of the unexpired term fixed in the first section of the Article," to-wit: four years from Jan. 1, 1873, Article 3, section 13.

It has been suggested that the Governor, instead of appointing Mr. Battle, or allowing Mr. McIver to hold over, ought to have nominated some one to to the Senate to fill the vacancy on Jan. 1, 1873. The answer is, that the Governor never nominates to the Senate to fill vacancies. He does that alone in all cases. But where officers have to be appointed to fill a regular term, then he nominates to the Senate, unless it be an officer who is elected by the people; and then he never nominates to the Senate but fills the vacancy or term by his own appointment, [unless there is an officer holding over] until the people can elect as in this case. Besides the provisions in the Constitution already quoted, we refer to the numerous authorities cited by defendant's counsel which were to the point and conclusive. See also People vs Bledsoe *et al.* and People vs McKee *et al*, at this term. There is no error. Judgment affirmed.

READE, J.

LEGISLATURE.—The Senate was yesterday morning occupied principally in the consideration of private bills, doing more work than they have done during any one sitting this session. The consideration of the bill establishing a new [illegible] his ears while interchanging views with his constituents. He had seen some of the citizens spoken of in the communication in the *Era*, signed "M," as well as others from that portion of the county, and he did not hear one word of the reported disturbance, and he did not believe that there was a word of truth in the statement. He thought that any citizen of Alamance who would slander the people to serve a particular purpose, ought to have his name given to the public, and not be permitted, assassin like, to shirk the responsibility under the garb of an anonymous slanderer. He pronounced the whole statement to be false.

We surrender our local space to-day to the opinions of the Supreme Court in some most important cases, deeming no apology necessary for so doing.

WHERE UMBRELLAS COME FROM.—At a *soiree* of the umbrella trade in Glasgow the other day the chairman said there was no country of any extent whatever which did not receive the major portion of its umbrellas from Glasgow. During last year there were used by the Glasgow manufacturers alone 837,260 sticks and 1,238,550 steel ribs.—*Exchange.*

The trouble with us is not to ascertain where umbrellas come from, but to know where our umbrellas go to. We opine that this is the trouble also with the general reader.

Mr. Editor:—In your issue of the 23d inst., you misrepresented me grossly, but I do not think intentionally. You say I "entered a protest against the passage of the resolution, requiring the laws to be publised in 40 days." Nothing could be farther from my purpose, as expressed in the "protest," or in the "resolution" to which you refer. The word laws is not in the resolution, and in my protest, I stated that the laws are to be distributed "in 40 days after the close of the session," &c.

My protest was in opposition to giving you further time after the expiration of "the 40 days," within which to get out the "Documents and Journals," *not the laws—not the laws.*

You say it was my "opinion the time could be lessened." I had no purpose to lessen the 40 days. I was not opposed to publishing the laws in 40 days. For three years, I have labored to accomplish this purpose—have introduced and passed three bills, looking to this end, and have at last succeeded.

I protest giving you *more* than fifty extra and additional days, in which to get out about 970 volumes, when you get out 2,700 in 40 days.

Yours respectfully,
W. L. LOVE.

The Public Printer only asked for the same time hitherto granted for getting out the documents and journals, being willing to the 40 days required in which the laws shall be printed, deeming it impossible, with the force that can be obtained in Raleigh, to have all the work done in the time specified. We asked for ninety days, and the Senate gave it to us, by a vote of 33 to 3. On Saturday Senatar Love filed his protest, saying he *knew* the work could be done in less time. He does not mention the fact that the journals and documents embrace *three different* forms, while the laws embrace only *one*—the former requiring *three times* the amount of composition required for the latter. Let him acquaint himself more thoroughly with the *practical* workings of the printing business before he expresses such a positive knowledge thereof.

The Amnesty Bill and the Pardon of Holden.

MESSRS EDITORS:—A communication touching the right of the Legislature to remove from Ex Governor W. W. Holden the disqualification imposed by the Constitution, the agitation of the subject and the introduction of the resolution into the Legislature for the removal of the disqualifications to hold office from W. W. Holden, was gotten up for political ends, as I believe, for the purpose of making political capital. There can be no other solution [of] the matter. The hue and cry is to b[e] [illegible] that the Legislature has passed [an] amnesty bill relieving all of the [illegible] League, Ku Klux Klan and other secret political organizations [illegible] the charge is this: [illegible] the Union League, Ku Klux &c., is concerned, W. W. Holden shares in all the benefits resulting to all of these secret political organizations, as well as any other member of any of them, and hence there can be no grounds of complaint on that score. And so far as the complaint against the Legislature for not removing the disqualifications to hold office from him, it is groundless and unreasonble also, for the disqualification is imposed by the Constitution. The second defence of the Legislature is that the Legislature has no *constitutional power* to do any such thing. Now to illustrate this case, we will say that it is well known to every lawyer and legislator, as well as every Justice of the Peace of the State, that in every case where the fine and penalty that is imposed on any certain crime is fixed by the law, that there is no discretionary powers left with the Judge or Justice of the Peace (as the case may be) before whom the case is tried; but as soon as the defendant is convicted the penalty is fixed, it is so by law, and the Judge or Justice of the Peace has no power to change it. The Legislature itself could not change it so far as that case is concerned. The Legislature could repeal the law or amend the law by a change of the penalty, but that change would not apply to nor remedy that case already tried and convicted; the only remedy in that case would be the pardoning power of the Governor—the Governor has that power under Article 3, and Section 6, of the Constitution. That section is in these words: The Governor shall have power to grant reprieves, commutations and pardons after conviction for all offences (except in cases of impeachment) upon such conditions as he may think proper, subject to such regulations as may be provided by law relative to the manner of applying for pardon, &c. The impeachment court set upon the trial of W. W. Holden under the organic law of the State and that law provides that the Senate presided over by the Chief Justice of the State shall constitute the court for the trial of impeachment, and lays down and fixes the penalty to be imposed after conviction. The penalty is the disqualification to hold office; and hence as soon as the Court found W. W. Holden guilty of high crimes and misdemeanors in office, there stood the penalty in the organic law already imposed on any State officer so convicted. The question now arises where is the pardoning power? We have already seen that the only pardoning power after conviction is vested in the Governor, and the organic law or Constitution prohibits him from the use of that power in case of impeachment. That pardoning power cannot be in the Legislature, for the Legislature is subject to the Constitution, and the Constitution nowhere gives the pardoning power after conviction to the Legislature; and hence, the Legislature has no Constitutional power to remove after conviction from any State officer the disqualification to hold office imposed by the Constitution upon conviction of misdemeanor in office. The question still is where does the pardoning power rest in the case of impeachment? The answer is found in Article 1, Section 37, of the Constitution. The answer is in these words: This enumeration of rights shall not be construed to impair or deny others, retained by the people; and all powers, not herein delegated, remain with the people. The pardoning power in the case of impeachment is one of the powers that the people have reserved to themselves. They, in convention assembled, made the organic law; they in convention assembled, can if they choose to do so, alter or change the Constitution, and remove the penalty imposed in the case of impeachment.

RESOURCES OF NORTH CAROLINA.

In a weekly paper called the *South*, published in New York City, we find an editorial in the issue of February 1st, devoted to the resources of the State of North Carolina.

The article, after paying a compliment to Col. George Little, the State Commisioner of immigration, and the *North Carolina Land Company*, in directing the tide of Emigration and this State, proceeds to give a "few reasons" why North Carolina is one of the best States "for people to emigrate to."

The first reason given is the spareness of the population. With a territory of greater extent than the States of New York or Pennsylvania, she has only a little over one million of inhabitants. "Along her eastern borders are large bodies of the finest timber, easily accessible to water tranportation, and many emigrants from the North are now operating profitable in that region. These lands cleared and properly drained, are as fine for agricultural purposes as any in the world."

The turpentine trees, "which are highly renumerative to those who box and dip them," and the cotton and cereal soil of the eastern counties are referred to in highly compiimentary terms, and their grape-growing qualities are especially commended. Speaking of the soil in the eastern section of the State the *South* says:

"Properly set with scuppernong, flowers, mish and other native grapes, it produces more than twice the number of gallons to the acre that can be obtained in Europe. * * * There is land enough, and to spare in North Carolina, to furnish all the wine that can be consumed in the United States."

The middle region of North Carolina, extending nearly three hundred miles to the base of the mountains, "is an undulating country, with soil either naturally good, or containing clay enough to retain fertilizers, and being generally capable of producing fine crops of clover, cotton, tobacco or grass. All fruits of temperate climates can be grown with advantage, and water power is a bundant for manufacturing purposes."

The mountain region, extending two hundred miles in length and about sixty in breadth, is remarkable for its abundant yield of grain crops, its clover, timothy, orchard grasses, &c., not being surpassed. It is also noted for the variety and excellence of its apples and grapes, for its fine timber, for its water-power, and for its cool Summer climate.

The minerals in the central and western portions of the State come in for special notices. Coal, the best iron ores, copper ores and gold mines are found in several counties. The silver mines in Watauga county, an account of which was given several months ago by a correspondent of the NEWS, are not mentioned. Mica, worth $2.00 per pound, is obtained in several of the Western counties, and the mica mines in Mitchell and Yancey counties are said to be quite extensive. Corundum has been found in several of the extreme Western counties, and crystals of that mineral of such character have been picked up "as to encourage the opinion that rubies and other valuable sapphires may be and found by a proper search."

On the whole the *South* thinks North Carolina is a most inviting State for emigrants. We think so, and we hope the Legislature before it adjourns will take the necessary steps to give to persons desiring it, full information concerning the resources and advantages of the various sections of the State, together with such statistics as will be interesting and valuable to emigrants.

GOOD FOR EDGECOMBE.

Nothwithstanding the Radical party has over two thousand majority in Edgecombe, the Conservative Executive Committee in that County at a recent meeting resolved to put forward a candidate of their own, in opposition to Mr. Joseph Cobb, the Radical nominee for the House of Representatives, to fill the vacancy on account of the ineligibility of Mabson, colored, who was recently declared by the Legislature not entitled to his seat.

The special election ordered by the Governor takes place to-morrow, the 26th inst., and while the Conservatives have no hopes to carry the county, yet in order to keep up the organization of the party, the Executive Committee have nominated E. R. Stamps, Esq., who made an able and gallant fight last year under the same banner, and won an enviable reputation throughout the county as an effective and zealous canvasser.

The Executive Committee, in their address to the people of Edgecombe, say: "Looking on the continuation of the integrity and compactness of the Democratic party as one of the main elements of our prosperity and safety, we should consider ourselves derelict in duty, did we not use every means in our power to preserve intact that organization."

Truthful and patriotic words. Let us, at all hazards, preserve the integrity and compactness of our party, and sooner or later, our principles must triumph, and right and justice prevail.

Our opponents are held together by no policy save that of the "cohesive power of public plunder." Their organization is liable at any moment to fall to pieces.

Already the investigations by the Credit Mobilier Committee have shown such corruption by the leading Radical members of Congress as endangers the organization of the National Republican party and threatens to shatter it into fragments.

Let Conservatives everywhere stand firm in their faith, and maintain the INTEGRITY AND COMPACTNESS of the party, and all will be right in the end.

TWO VICTIMS ONLY.

The papers of the country without distinction of party, are denouncing the report of the Poland Committee, in the matter of the Credit Mobilier investigation. This report offers apologies for the conduct of each of the implicated Congressmen except Oakes Ames and James Brooks, and these two are recommended for expulsion.

Now, such white-washing will not satisfy the country. The people do not believe the other Congressmen implicated are less guilty than Brooks. It would seem from the Committee's report, and the excuses they find for the corruption of others, that they have peculiar spite against Ames and Brooks.

Ames is thought to merit expulsion because he bore evidence against his fellow-members. We do not know why Brooks should be deemed worthy of similar treatment any more than the rest of the Credit Mobilier crew, unless it is because Brooks is a Democrat, and all the others are Republicans.

The public has read the testimony. The world knows as much about the matter as the Poland Committee. The Committee's distortion of the evidence, and their paltry excuses for the misconduct of leading Republican Congressmen will not change the verdict of the people, nor rescue from disgrace the names of the guilty parties. The seal of public disapprobation and condemnation has been set upon the Congressional culprits, and that mark will stand for all time to come, an indelible stigma of moral turpitude and ignominy.

ALAMANCE COUNTY.

Senator Murray, of Alamance, who was in attendance last week at the Superior Court of his county, pronounces as a canard the communication of "M," in the Raleigh *Era* of Saturday, professing to give a statement of recent outrages in Alamance county. The communication is dated at Graham, Feb. 20th, 1873, and argues to show that these recent occurrences are the result of the contemplated passage of the Amnesty Bill, which comes up for action in the House to-day.

We publish in full Senator Murray's remarks, pronouncing the statements of "M" as malicious and deliberate fabrications, without a shadow of foundation.

The bill has no effect upon outrages committed since September 1871, and would not screen from punishment the offenders mentioned by the *Era's* correspondent.

Such efforts as these to defeat the bill will only add to the strength of the measure.

Read Senator Murray's speech, and see to what depths of falsehood and malignity poor human nature will descend when all regard for truth, honor and justice [illegible].

GOV. GRAHAM.

The removal of the political disabilities of Gov. Graham has called forth from the Conservative press of the State some handsome encomiums on the character and services of that distinguished gentleman. As a sample of the rest, we give the following from the Battleboro *Advance*:

HON. WM. A. GRAHAM.—We are gratified that Congress has at last removed the disabilities of this distinguished son of North Carolina.

No purer or more patriotic statesman breathes the air of America, and the heartless and unmerciful conduct of the government towards him is a blot on the page of our country's history. The long and cruel delay attending this simple act of justice mars and destroys the magnanimity, which should have adorned a great and powerful nation.

But in common with all the good people of the State and of the Union, we are gratified that a great and good man is once more free, like other men, and that his ripe and experienced wisdom again belongs to his people.

PASSAGE OF THE CONSTITUTIONAL AMENDMENTS.

All the Constitutional Amendments, except that relating to Public Charities, that passed the Senate, have also passed the House, and it only remains for the Legislature to make provision for submitting them to the direct vote of the people for ratification at the ballot-box

As it is important that these amendments take effect at the earliest day practicable, we think the Legislature, before it adjourns, ought to take the necessary steps to have the amendments voted on before next Winter.

A punctual Minnesota maiden lately married a casual acquaintance who happened to be in church, rather than be kept waiting for her original intended, who was a quarter of an hour behind the appointed time.

A second special train has been run over the entire line of the Chesapeake & Ohio road from Richmond to Huntington. The return train brought 28 cars loaded with freight from cincinnati.

THE NORTH CAROLINA BONDHOLDERS.—A meeting of North Carolina special tax bondholders was held in New York Thursday. Mr. Thomas Denny, Jr., presided. Mr. Hart, of Canada, made a report of his visit to North Carolina, and his unsuccessful attempt to obtain payment of interest on his bonds. He also presented the written opinion of Mr. Reverdy Johnson to the effect that the holders of the special tax bonds have a preferred claim against the State for interest, and that he (Mr. Johnson) is ready, if desired, to commence suit in the United States Court in May to compel the State Auditor to pay the past-due coupons on those bonds. It was voted that suit be commenced, and thus advised, on behalf of so many holders of these bonds as shall pledge themselves to pay their proposition of the expense, none who do not thus pledge themselves to be included in the suit. Messrs. T. Dennis, Jr., Leggatt, and J. B. Manning, were appointed a committee to carry out the resolution.

At the close of the meeting holders of bonds to the amount of nearly $2,000,000 signed the proposed agreement. Signatures will be received until April 15th.

CENTURY WHISKEY!
Persons in delicate health, often find it difficult to obtain a Pure Stimulant when prescribed by their Physicians, and it is for Druggists and other first-class trade that the
CENTURY WHISKEY
is particularly designed. It is differently prepared from
ANY WHISKEY IN MARKET,
and is driving many old brands out of market, because the "principle upon which it is made is superior."
The almost universal testimony of those who have used the
CENTURY WHISKIES
is, that there is an entire absence of Headaches, and other disagreeable after-effects so often experienced in the use of other brands. This is a direct consequence of the
Purity of the Century Whiskies,
and the impurity of many other brands. They are ABSOLUTELY PURE; four prominent chemists certify to this fact, viz:
Prof. SILLIMAN, State Chemist of Connecticut.
Prof. C. U. SHEPARD, Jr., State Chemist of South Carolina.
Prof. W. C. TILDEN, Washington, D. C.
Prof. JOHN DARBY, New York.
All of whom agree in pronouncing it "without fault," and "free from any deleterious substance whatever."

State Fair Premium at Wilmington for the Largest Amount of Cotton to an Acre.

GOLDSBORO, Wayne County, N. C., November 23rd, 1872.

JOHN H. POWELL, Esq.:
DEAR SIR—The Soluble Sea Island Guano purchased of you this season was used by the side of three others, and has given me more satisfaction than any of the others. The Soluble Sea Island Guano was the one used upon the acre of land upon which my son raised the cotton upon which he took his State premium for the greatest amount of cotton to an acre; and I am informed by the Chairman of the Committee that had he entered for the largest amount of cotton to the acre, premiums open to all ages, he would have also taken that premium, beating all 150 lbs. I am better pleased with it than any other Guano I have ever used on cotton, and I shall use it in preference to others next season for my cotton crop.
T. A. GRANGER.

ALSO EIGHT PREMIUMS AT WAYNE COUNTY FAIR.

The Amount of Seed Cotton made on an Acre of Upland by Mr. Granger was Three Thousand Six Hundred and Thirty-three Pounds.

EDGECOMBE COUNTY, N. C., December 12th, 1872.

Messrs. R. W. L. RAISIN & Co., Baltimore:
I bought of Messrs. Branch, Herbert & Co., last Spring, one ton of your Soluble Sea Island Guano for myself and three tons for other parties, and I find them all well pleased with it, and say it is the best Guano, and paid them better than any they ever used. The ton I used myself was put in cotton by the side of two other guanos, and I am willing to say that I should buy the Soluble Sea Island Guano in preference to any that I have used since the war. Very respectfully,
J. R. GREEN.

SELMA, N. C., November 12th, 1872.

W. H. AVERA, Esq.:
DEAR SIR—The ten bags Soluble Sea Island Guano more than met my expectations I consider it equal to Peruvian for cotton. It paid me over 100 per cent. I more than doubled the crop. My neighbors who bought it are highly pleased, and will use it in preference to any other when it can be had. Hope you will keep a supply the coming Spring.
Truly yours, R. HARE.

LOUISBURG, N. C., December 4th, 1872.

E. W. FULLER, Esq.:
DEAR SIR—I tested your Guano this year, and the result is, I will use it on my whole cotton crop next year.
Yours, &c.,
ELLIS MALONE.

HENDERSON, Granville County, N. C., November 29th, 1872.

To S. J. PARHAM:
The Soluble Sea Island Guano purchased of you was used on tobacco and cotton by me by the side of Peruvian Guano, Stonewall & * * * *. I like it much better than either, and I observed a marked difference in favor of the Sea Island. Shall use in the future.
S. S. ROYSTER.

HENDERSON, Granville county.

HENRY BURRELL, Esq., has stated to us that he made a test this present year's tobacco crop, using two other higher-priced guanos, but is convinced that the Soluble Sea Island Guano is the cheapest guano he has ever purchased, and shall use it again.

YANCEYVILLE, Caswell County, N. C. December 6th, 1872.

Captain W. P. ROBINSON,
DEAR SIR—In reply to your inquiry as to how I liked the Sea Island Guano I got of you, I wish to say that I applied it, 200 pounds to the acre, alongside of Peruvian, Pacific Guano and Gilham's Tobacco Fertilizer in equal quantities; it stands the drouth better than either of the above fertilizers. It matured better on the hill and cured better and more yellow than either of the other fertilizers used. I think it is a splendid fertilizer and I expect to use it next season.
Yours, respectfully,
MARCELLUS MIMMS.

WILSON, N. C., January 11th, 1873.

Messrs. HARRISS & BLACKWELL:
GENTS—I used this season, on my cotton crops about 15 tons of your Soluble Sea Island Guano, testing it by the side of Guanape and Vegitator, and up to the time of the heavy washing rains last of June, I was equally pleased with its action as of the Guanape and better pleased than with the Vegitator.

The Virginia Legislature is discussing the propriety of leasing out the State Penitentiary and prisoners for the purpose of establishing some large manufacturing operation. The mechanics and workingmen of Richmond have presented a memorial to the Legislature praying that this be not done, as such an act would not only bring into competition the labor of the convict with that of the honest labor of the country, but would inevitably blight the hopes of the artizan and forever seal the doom of the mechanic in degrading him to the level of the criminal.

Governor Walker, of Virginia, in his message to the Legislature, argues in favor of the assumption by the General Government of the debts of the State. We think Virginia had better pay its own huge debt before it takes care of those of the States. This message will be strongly pressed upon the attention of Congress by an interested lobby of bondholders, and it is quite likely to be adopted. In that way the hard-working men of the North will be obliged to shoulder the huge debts that have been run up by the negroes and carpet-baggers in the South—most of which debts consist of money stolen by them from the people.—*Cincinnati Enquirer.*

A Washington correspondent, under date of Saturday, says: It has been given out that the President defers his trip South on account of the mixed condition of political affairs in Louisiana, but there is certainly no foundation for this report. He believes that the condition of public business alone prevents him from the enjoyment of the pleasures of such a tour, and should Congress complete all necessary work before it adjourns he may yet take this trip.

SPECIAL NOTICES.

DR. TUTT'S EXPECTORANT.—The properties of this elegant preparation are demulcent, nutritive, balsamic, healing and soothing. It braces the nervous system and produces pleasant and refreshing sleep. It exhilarates and relieves gloominess and depression. It is the most valuable Lung Balsam ever offered to sufferers from Pulmonary diseases.

PERRYVILLE, ALA., March 3, 1899.

Dr. W. H. Tutt:

Dear Sir—For fifteen years I have been afflicted with Asthma. My suffering has been intense. I have been unable to lay down for a week at a time. It seemed as if I would choke. I coughed incessantly, and my wheezing could be heard all over the house. I had despaired of ever getting well, but thanks to your invaluable Expectorant, my attacks are seldom. I can now rest well at night. I believe it will make a permanent cure. Truly yours,

ARTHUR F. MCCOY.

THE PEOPLE'S STAMP OF VALUE.—The Government indorsement, which legalizes the sale of PLANTATION BITTERS, is not the only stamp affixed to that famous Vegetable Tonic. It bears, in addition to that official sanction, the still more valuable stamp of public approbation. This inestimable voucher of its rare properties as a Tonic, Corrective and Alterative, is of much earlier date than the Government credential; for millions of sick persons had pronounced it the Grand Specific of the Age long before Congress thought of taxing proprietary medicines. It is unnecessary to repeat, in detail, the proprieties of this wonderful Vegetable Invigorant. The best reference that can be offered to those who desire the full particulars of its virtues, is the General Public. Ask those who have tried it as a remedy for dyspepsia, constipation, billiousness, intermittent fevers, nervous debility, rheumatism, sea sickness, low spirits or loss of vital power, what Plantation Bitters has done for them, and be governed by the response they make to your inquiries

BECKWITH'S ANTI-DYSPEPTIC PILLS.—The Hon. James Iredell, late Governor of North Carolina, made the following statement with regard to Beckwith's Pills:

"Dr. Beckwith's Anti-Dyspeptic Pills have been used in my family—which is a large one—with the most beneficial effects. A number of my friends who have been afflicted with dyspepsia and other disorders of the stomach, have spoken to me in strong terms of the relief they experienced from this remedy. Without the evidence I have received from others, my intimate knowledge of the professional and private character of Doctor Beckwith for the last twenty years, justifies me in declaring that he would give no assurances of facts of his own experience, or of professional deductions, of which he was not perfectly confident, in which the public might not safely rely.

JAS. IREDELL."

HELP FOR THE HOPELESS.—You are weak, dejected, miserable, and nothing does you any good, you say. Don't despair. There is balm in Gilead. Have you tried Vinegar Bitters? No! Then why don't you? Whether your complaint be dyspepsia, biliousness, nervous weakness, constitutional debility, or any other trouble, Vinegar Bitters will revive and renovate your shattered system, as a genial rain refreshes the withered flowers.

This is strictly a

HOME LIFE COMPANY.

Its Officers and Directors are citizens of the State, of high character for business capacity, enterprise and probity. It offers every

SUBSTANTIAL BENEFIT

that Northern Companies do, with the great additional consideration that the capital is kept within the State, and, therefore, helps to build up and foster Home Institutions.

Another important fact to be considered is, that the Wilmington Live has thus far obtained A VERY MUCH LARGER INTEREST for the money invested at home, than any of the New York Companies receive for their investments, according to their sworn statements before the Commissioner of that State.

These unquestionable facts should commend this Company, above all others, to our people. Let it be born in mind that millions of dollars received for Life premiums have been sent North since the war, which at once drains the South and enriches the plethoric capitalists of the North. If there was no other consideration, safety, fairness and cheapness being equal, why North Carolinians should INSURE AT HOME, this were more than sufficient.

THE WILMINGTON LIFE

has excellent special features.

It places no restriction on Residence or Travel; it makes no extra charge for Female risks; and its Policies are incontestable after Five Years.

Its business is managed economically. Its risks are taken with equal caution. Its investments are made judiciously.

Its motto is:

"ECONOMY, PROMPTNESS, FAIRNESS."

This Company has steadily pursued two great practical ends:

FIRST.

To place its policies beyond the power of adverse contingencies.

SECOND.

To reduce the actual outlay of its members for their policies to the lowest possible rate. To accomplish this, it allows him to retain from 20 to 30 per cent. of the first premium as a permanent credit or loan, and to retain from each subsequent premium that portion of the previous year's full premium actually proved to be surplus; so that at no time does the Company take from him a higher actual premium than is needed to carry the risk for the year, and provide the reinsurance fund. It is strictly Mutual. Nothing is diverted to stockholders, and each member has his insurance at its exact cost to the Company. Its rate of expense has been from the beginning less than that of other companies.

TUESDAY..................FEBRUARY 25, 1873

THE LEGISLATURE OF NORTH CAROLINA.

SENATE.

MONDAY, Feb. 24.

Senate met at 10 o'clock, Lieut. Governor in the chair.

Journal of Saturday read and approved.

Mr. King appeared in his seat this morning, having been absent for some weeks, and was allowed to have his name recorded as voting in the negative on certain Constitutional Amendments.

Mr. Murray rose to a question of personal privilege, and denounced the writer of a certain letter in the Daily *Era* of Saturday, signed "M.," referring to alleged recent ku klux outrages in the county of Alamance, and purporting to have been written from that county, as false, malicious, and fabricacious, and thought the public should have the writer's name.

Reports from Standing Committees were presented by Messrs. Flemming, Murray and Love.

Mr. Norwood introduced a bill to organize the Fire Department of Wilmington. Referred.

Mr. Morehead, of Guilford, a bill supplementary and explanatory of all acts of incorporation passed at the present session of the General Assembly. Providing that nothing contained in any act passed shall be construed to empower or permit any railroad or other company or corporation to hold, purchase or convey any real estate, excepting so much as is usual and necessary to carry on the proper and legitimate business of such corporation. That nothing in said acts giving exclusive privilege as to location shall be deemed to apply to mountain gaps, to the bridging of rivers or crossing peninsulas or swamps; nor shall anything in said acts be construed to relieve any of said corporations from a longer time than 20 years, or to empower or permit any of them to trade or traffic in any kind of property. The bill also limits the powers granted by any act of this Assembly incorporating any bank, loan association or insurance company, and bills for the relief of guardians and administrators. Referred.

Mr. Seymour, a bill in regard to the fees of the inspectors of turpentine. Referred.

Mr. Flemming, a resolution in favor of J. H. Ennis. Referred.

Messrs. Grandy and Love were granted indefinite leave of absence in consequence of sickness in their families.

Mr. Waring was announced as being absent from his seat on account of sickness.

Rules suspended, and the following bills passed their several readings:

Bill relating to the People's Agricultural Society composed of the counties of Catawba, Burke, Caldwell and Alexander.

Bill in relation to the sale of town lots in the town of Washington.

Bill allowing any five County Commissioners to declare streams lawful fences, under certain circumstances.

Bill to prevent the obstruction of natural water courses by the felling of trees or otherwise.

The following bills were tabled:

Bill amending an act concerning corporations.

Bill to repeal an act to construct a railroad from Salisbury to Georgia.

Bill defining the duties of Judges of Superior Courts in certain cases.

The special order being the consideration of the bill, introduced by Mr. Welch, declaring what portion of the debt of North Carolina is valid, and to pay off the same, &c., (a synopsis of which we published last week.)

Mr. Welch proceeded at some length to advocate the passage of the bill. He thought the matter should command the anxious consideration of every member of the General Assembly, whose highest ambition should be to relieve the State from the embarrassments under which she has already too long labored. [We shall endeavor to lay Mr Welch's remarks before our readers to-morrow morning.

Mr. Cunningham moved to refer the bill to the Committee on Public Debt. He said we have had no report from the committee charged with this matter. No State in the South had taken such action, and he considered it premature. He had heard that there was a proposition for the General Government to assume the debts of the reconstructed States. Congress ought to do this in consideration for the property they had taken from us. It was well known that the Southern States could not now meet their obligations. He was in favor of masterly inactivity, &c. Would give his views more fully when the bill was reported. Adopted.

Bill to regulate mortgages by corporations and sales under the same was taken up, the said bill eliciting quite a discussion participated in by Messrs. Morehead, of Guilford, Flemming, Gudger and Merrimons. Tabled.

Bill in relation to homestead and personal property exemption.

Bill for the prevention of fraud in certain cases. Tabled.

Bill extending the time of registering the grants of lands, deeds, and other conveyances. Passed its several readings.

Bill to prevent dams or other obstructions across French Broad River. Tabled.

Bill for the protection of railroads in North Carolina. Tabled.

House bill repealing an act for the better protection of terrapins and oysters in the waters of North Carolina. Passed its several readings.

House bill authorizing the imprisonment in the State Penitentiary of persons tried and convicted by any Federal Court setting in this State, for offences against the Federal Government—the Federal Government to pay the expenses of the said convicts. The said bill empowering the proper authorities to receive the same, if they deem fit. Passed its several readings.

Bill to amend section 209, chap. 2, Code of Civil Procedure, was tabled.

Senate bill appointing a committee to investigate the alleged frauds in the election in August, 1872, was tabled.

A substitute for the bastard bill, amending the present law, passed its several readings.

Mr. Cunningham introduced a bill incorporating the Central Fire Insurance Company of North Carolina. Referred.

Bill asking the Governor to issue a proclamation looking to the preventing of immigration from this State, was tabled.

Bill in favor of the heirs of James McCoy, deceased, passed its several readings.

Bill amendatory of an act providing for a Board of Public Charities was considered. It provides that there shall be a Board of Public Charities, with power to sue and be sued, to consist of fifteen male persons, to have immediate control of the Insane Asyum, the Institution of the Deaf, Dumb and Blind, and of all the charitable and penal institutions of the State. The said board to have the power to appoint subcommittees from its own number to take charge of the several institutions.

The passage of the bill was advocated by Messrs. Allen and Merrimon, and opposed by Messrs. Seymour and Harris.

The previous question on the passage of the bill on its second reading was ordered bp a vote of 28 to 11.

The bill then passed second reading by a vote of 27 to 13.

Mr. Morehead, of Guilford, moved that the bill be printed and made special order for to-morrow at 11 o'clock. Adopted.

Bill concerning the right of way to churches and places of public worship. Passed several readings.

Bill in relation to Attorneys at Law. Tabled. Bill relating to fees of county officers. Passed several readings.

Bill establishing a hospital for the Insane, at Charlotte. Tabled.

Bill to regulate the time for the election of Justices of the Peace and that of Township officers—that the same take place at the same time with the election of members of the Legislature and the present officials hold over until the fall of 1874. Passed its second reading and referred to Judiciary Committee.

Bill amending an act providing for the service of process issuing from Justices of the Peace in civil causes, when one or more of the defendants may reside out of the county in which the action is brought. Passed several readings.

Mr. Troy was in his seat this morning, having been detained from his seat during last week by sickness.

NOTE.—In the discussion on the bill for the relief of the Commercial Bank of Wilmington, Mr Cunningham is reported in Sunday's NEWS as saying "he knew of thousands of other cases." Mr. C. said he had heard of similar cases involving *thousands of dollars.*

HOUSE OF REPRESENTATIVES.

House called to order at 10 o'clock by Speaker Robinson.

Journal of Saturday read and approved.

Mr. Hanner was allowed to record his vote in the affirmative in the various constitutional amendments.

Mr. Sneed presented a memorial from certain citizens of Granville county, in regard to the subscription in the Granville Railroad by that county.
